

RALPH W. MURPHY

DIAMOND DICKEY

On April 26, 1943, the engineering, sale and servicing of Esterline-Angus Instruments for the Chicago area was taken over by Mr. Ralph W. Murphy and Mr. Diamond S. Dickey.

RALPH W. MURPHY is a brother of the late J. Walter Murphy. Ralph secured his electrical engineering training at Lewis Institute in Chicago. He joined the J. W. Murphy organization in 1934. In the intervening nine years he has had a wide range of experience in the application of Esterline-Angus Recorders to a variety of industrial, utility and research problems.

DIAMOND DICKEY is a Chicago product, a graduate of Tilden Technical High School and of Armour Institute of Technology. Dickey joined the J. W. Murphy organization in 1934, starting as an office assistant, then going into the field for service and installation work, later becoming office manager, and finally becoming a full-fledged sales engineer in 1939.

We have selected Murphy and Dickey as our Chicago "ambassadors" for their technical training, their wide experience, their sound judgment, their personalities, and their desire to give you prompt, accurate and thorough service. We know you will like to deal with these men.

Please note this new address and telephone:

MURPHY & DICKEY
537 South Dearborn St., Chicago, Illinois
Telephone—HARRISON 7881

If you are not already acquainted with Messrs. Murphy and Dickey, they will call and introduce themselves as soon as possible. In advance of their visit, a letter, wire or phone call will place the experience and skill of these men at your service immediately.
